If YES, check out 11TEN Innovation Partners, where we help businesses accelerate innovation through the power of ecosystems: 1 + 1 = 10 or 11 | TEN. Apply today and start *#RealizingInnovation*.

11TEN Innovation Partners is a fast-growing innovation strategy and operations firm that manages the development, strategy, and administration of innovation projects, ecosystems, and programs for Fortune 100 companies and high-performing startups. We are seeking an Associate to join our Innovation Strategy and Operations team – someone who is entrepreneurial-minded and passionate about working throughout the innovation process to bring new healthcare technologies and partnerships to life. As an early member of the team you will have the opportunity to help set the foundation of the business while taking ownership of your client partner projects.

Primary Responsibilities

- Supporting and/or leading workstreams of innovation strategy and delivery projects, including strategy development, end-user problem definition, research and discovery, process/product mapping and future state redesign, product prototyping and development, pilot and validation, technology integration, and design and solutioning workshops
- Developing presentation decks, process maps, innovation prototypes, future state recommendations, data analyses, business cases, design/user experience mapping, financial models, or associated deliverables for consulting projects
- Facilitating and/or supporting partner/client interviews, focus groups, and design-thinking sessions to inform ideation, problem identification, and solution design
- Supporting innovation roadmaps and workshops to develop innovation strategy and project support materials
- Researching relevant industry problems/trends/challenges/unmet needs and associated recommendations, frameworks, etc.
- Researching and tracking ventures/startups, funding/deals, and exits in relevant industry areas
- Managing and/or building relationships with innovation partner and client stakeholders
- Supporting innovation program development and partner onboarding
- Supporting internal and program partner’s PR, marketing, and events including generating blog posts, press releases, and social media content

- Supporting company solution and product development to enhance delivery capabilities and standardization
- Assisting with development and coaching of Analyst team members

Qualifications

- Bachelor's degree required; advanced degree (i.e. MBA, MPH, MHA) in a discipline related to business, engineering, technology, and/or healthcare, or equivalent practical experience preferred
- Minimum of 2 years of experience in innovation strategy, technology, and/or healthcare consulting, or other relevant field
- Previous consulting experience at a top tier firm with knowledge of the innovation strategy process and healthcare value chain is strongly preferred
- You apply critical thinking and analytical skills; you can break down complex problems into component parts, perform research, structure and analyze qualitative and quantitative data, and present viable solutions with support
- You are willing to travel as needed (anticipated up to 25%)
- Applicants for employment must have work authorization that does not now or in the future require sponsorship of a visa for employment authorization in the US

Commitment to Diversity

11TEN is an Equal Opportunity Employer and does not discriminate against any employee or applicant for employment because of race, color, sex, age, national origin, religion, sexual orientation, gender identity, status as a veteran, on the basis of disability or any other federal, state, or local protected class. 11TEN actively welcomes and encourages individuals of diverse backgrounds to apply for this position as we are committed to building and sustaining an inclusive and equitable working environment.
